I was absolutely fed up with all the gunk and unnaturalness in all the mainstream shampoo brands, I kept having to switch brands because it was as if my hair got used to the shampoo formula and then the shampoo would stop working as well to keep my hair clean. I set out to find the simplest possible ... [show more](#)

This shampoo works great!! I use this once a week as the first step in my double hair cleanse. I have to use half the amount of my second shampoo for my second cleanse. This stuff smells fantastic. Very light citrus with a hint of herbal. Also lathers really well upon first applying, which surprised me ... **show more**

I have been a professional hairstylist working in a salon for over 10 years and this has quickly become my favorite shampoo and conditioner to use not only behind the chair but at home on myself! The Ingredients shampoo is great on every hair type (trust me I have all hair types come through the sa ... **show more**

I'm almost 80 so have tried dozens of shampoos in my lifetime and this is the best shampoo ever. It's so gentle yet cleanses well and it's light naturally scent it perfect. I love that it's all plant based so it's good for me and for the environment. Will buy again and recommend to family and frie ... **show more**

The one thing that I was drawn about with Ingredients was it's amazing scent. It reminded me of the days when I applied natural oils to help it grow and gain volume. Ever since I've been using the product, I've been getting a lot of compliments on the shine and fullness to my hair. Prior to using, ... **show more**

I absolutely LOVE this shampoo. I started buying it after bleaching my hair and dying it a semi-permanent purple color during the pandemic. I tried many natural and gentle shampoos to see which one worked best in terms of lather, scent, cleanliness, and not removing too much color. Out of all of the ... **show more**

Absolutely love Ingredients! My girlfriend and I were using general brands like Pantene and Garnier for basically our entire lives before we decided to actually start being a little more conscious about what we were washing our hairs with. We've been using Ingredients for about 5 months now cons ... **show more**

Unlike some of the other reviewers my hair is thick and on the dry side. It has made my hair shiny and soft and not as bulky. A small face with big hair is hard to manage. I love this shampoo and have already ordered more. It is so hard to find hair products without harmful synthetic ingredients tha ... **show more**

This shampoo and conditioner is an excellent duo for anybody with flaky, itchy, or dry scalp. Seborrheic Dermatitis has made my scalp and hair a mess for the longest time, and finding a natural remedy that actually works has been a quest. After the first couple of uses the flakes and debris on my head ... **show more**

My hair is very long and thin, and it is usually difficult for me to find a natural product that does not leave it super dry and opaque. The InGreendients shampoo gently cleanses and moisturizes the hair, and has a very refreshing and pleasant scent. Definitely buying a second bottle soon.
